

## This week's top story

This week, Alphabet is proud to announce the official opening of 73 Gemini AI Labs across the Los Angeles Public Library (LAPL) system. From the historic halls of the Central Library to the vibrant heart of the Pacoima branch, we are transforming our city's libraries into gateways for the digital age.

A Mosaic of Impact  
Your Stories, Our Inspiration

11-year-old Leo isn't just playing games; he's using Gemini to architect complex voxel castles in Minecraft, learning the logic of AI-assisted design before he even hits middle school.

# More Highlights

73 Branches. Zero Barriers.

We believe that world-class tech education shouldn't be gated behind "Silicon Beach" prices. By activating all 73 LAPL branches, we are ensuring that whether you are in San Pedro or the Valley, a state-of-the-art AI sanctuary is just a short walk away.

"The library has always been LA's great equalizer. With Gemini Labs, we are ensuring it remains the launchpad for the next century of Angeleno dreams. [Read more>>>](#)

## Built on Trust & Transparency

Innovation only works when it's safe. Our Governance Commitment ensures that your journey with Gemini is protected:

- **Privacy First:** Your data belongs to you. Lab interactions are never used to train our public models without explicit consent.
- **Inclusion for All:** All labs feature multi-language support and full accessibility for all neurodiverse learners.

# Your Journey Starts at the Library

The glowing blue and gold lights of the Gemini Lab are waiting for you.

What will you create today?
